## LOCAL ITEMS.

RELIGIOUS SERVICES YESTERDAY.-The weather yesterday was cold, cloudy and disagreeable, and the attendance at church, consequently, smaller than usual, though it was the first Sunday in the month, and in many of the churches Communion Sunday. The following is a report of the work done during the day by the Young Men's Christian Association: "The Mission Sabbath School on the fish wharf had its full complement of teachers and the number of scholars decreased on account of the weather, but the interest in the work was kept up, and the session was a happy one. The Alms House services were well attended and a full committee on hand; the exercises were fully maintained in character and result. The Jail meeting had its usual happy season; a full committee on hand; one of the inmates now under sentence of death was visited in his cell and expressed his entire contrition for his sins, and requested the prayers of God's people in his behalf. The Sunday prayer meeting in the afternoon at the 1st Presbyterian Church was very well attended considering the aspect of the weather; the exercises were of the usual interest and ferver. Special prayer was requested for one under sentence of death, and the response thereto was very fervent. The young people were out in goodly numbers, and special appeals were made to them." meeting will be held next Sunday in the Methodist Episcopal Church South.

County Court.-The December term of the County Court, Judge Cockerille presiding, commenced this morning.

Eight deeds were recorded in, and nine marriage licenses issued from, the office of the

clerk during the month of November.

A. & F. R. W. Co. vs. Frances Swann; report of commissioners appointed to condemn and along the line of the A. & F. R. W. awarding to said Frances Swann \$250, was confirmed and ordered to be recorded. James Roach was appointed Collector of

Jefferson Township, vice W. E. Carter removed from that township.

John Rollins, colored, indicted for mur-

der, plea not guilty, jury, and case in progess at 3. p. m., when this report closed. The following account of the murder was published in the Gazette of the 9th of last July, the day after its occurrence. "A disturbance occurred among some colored men near the brick yards between here and Washington last night during which one of them named John Rollins, drew a razor and cut and slashed another one named Arthur Cole in a terrible manner, one gash going entirely through the wall of his abdomen and allowing his intestines to protrude. Rollins then went to Washington in which city he was arrested and brought here and lodged in jail to wait the result of Cole's injuries. Five surgeons among them Dr. Gibson, of this city, attended the wounded man." He died on the night of Friday. August 2nd. Mr. Chilton appeared for the Commonwealth and Mr Johnson for the prisoner.

RIVER NEWS .- The warru weather of to-day has cleared the river near this city almost entirely of ice, and the trips of the Maryland ferry boat Virginia, which were suspended on Saturday in consequence of the ice on the opposite flats, have been resumed. The prevailing South wind, however, has driven the ice up the river, and from the Arsenal to the Washiugton wharves it was banked up early this morning, and was the occasion of some difficulty to the steamboats that left there then. The Farmington steamer Fairy has not been here since Friday, and is thought to be frozen-up in Piscataway Creek. The Machodoc steamer Zaidee that should have left here early this morning, had not arrived from Washington at 2 o'clock this afternoon.

WILD DUCKS. -Two ducking boats arrived up this morning from a two week's trip down the river as far as Potomac Creek. They met small number of mallards, shufflers and white backs. They report fewer white backs than almost ever before known, and also fewer shufflers, though the latter have increased considerably of late, and are now becoming more numerous. Mallards were plentiful, until the late cold "snap," which sent them farther South. They took most of what they killed to Washington on the 12 o'clock boat to day, the hucksters of which city pay \$2.50 a pair for white backs, \$1 for red necks and 75 cents of this horrible disease. for shufflers and mallards.

PREPARATIONS FOR CHRISTMAS. -Already the store windows indicate the proximity of this approaching gestal season, and in a short time its joys and pleaseres will be eagerly anticipated by every man, woman and child in the city. The merchants have not vet laid in their full stock of Christmas goods, and are doing so as rapidly as possible, and they will loss no time in letting the public know where they can be found, through the columns of the Gozette.

NABIOLOID. -Two cases of variolaid were reported yesterday as existing in the house on Union street, below Wolfe, in which a case of the same disease occurred about three weeks ago. The patients are colored children, and as there is some difficulty about procuring medical attendance for them a meeting of the Board of Health will be held to night for the purpose of making arrangements for their treatment and seclusion.

CANAL NEWS .- Most of the coal companies have suspended shipping operations by the canal from Cumberland for the winter. The ice breakers started from Cumberland this morning to open a way for the boats which were caught on the canal by the late freeze. Work on the break at Four Mile Run was suspended at noon on Saturday in consequence of the then prevailing cold weather.

RESERVED RIGHTS .- Among the cases at the Mayor's office this morning, was that of a female cook, who, upon being found fault with by the lady of the house for not getting breakfast early enough, had assaulted that lady with a rolling pin.

THE WEATHER, -After the cold "snap" of two or three days, with sleet last night, and a prospect of a heavy snow storm, the weather has suddenly moderated, and, this morning, it

turned comparatively mild. WORK WITHOUT PAY .- By reference to advertisements in another column, it will be observed that the progressive Notion House of

[Special Dispatches to the Alexandria Gazette.]

## Affairs in France.

PARIS, Dec. 2.-Two Cabinet Councils, each of long duration, were held yesterday. After full deliberation upon the situation Thiers finally agreed to remain in the Presidency if the Ministers who tendered their resignations yesterday would withdraw them and the latter cons nted to the proposal of the President.

It is reported that General Ducrot has been summoned to Versailles to reply to reports accusing him of preparing his troops to act in a hostile attitude to the government in case of a crisis and of issuing circulars to General Darmene in his district ordering him to make inquiry into the political opinions of the inhibitants.

The Debats says the fact that General Ducrot is in possession of an important command is not reassuring to those who fear a coup.

## The Late Horace Greeley. NEW YORK, Dec. 2 .- The Arcadian Club,

yesterday, passed resolutions of regret at the death of Horace Greeley, and voted to attend the funeral in a body. Rev. Drs. Armitage, Tallmadge, Froth

ingham and many others either referred to or preached full sermons relative to the death of Mr. Greeley. NEW YORK, Dec. 2 .- The World claims

that the electorial vote intended for Horace Greelev cannot be cast for another, but must be cast blank. The Sun says the remains of Mr. Greeley

will lie in state in the Governor's room, in the City Hall, to-day and to morrow.

### Fire-Ice.

OSWEGO, Dec. 2.-The Crescent flouring mill owned by Wright and Mills was burned yesterday. Loss \$40,000 on the building and \$8,000 on the stock. The building was insured for \$35,000 and the stock for \$6,000. The canal is closed at this point by icc.

## Weather Report.

WAR DEPARTMENT, OFFICE CHIEF SIGNAL OFFICER,

WASHINGTON, Dec. 2, 11 a. m. Probabilities. - For the northwest and Upper Lakes and thence to Kentucky and Tennessee, and Arkansas, clearing and colder weather with occasional light snow and increasing pressure. In the Gulf and South Atlantic States southerly to westerly winds, higher pressures, lower temperatures to morrow and partly cloudy weather. For the Lower Lakes and New England, low barometers, cloudy weather, occasional rain and snow, southerly to westerly winds and higher temperature in the latter. For the Middle States, occasional light rain in the mountains and northern portions, southwesterly to westerly winds, with partly cloudy weather. ### Small Pox in Fairfax County. To the editor of the Alexandria Gazette:

THEOLOGICAL SEMINARY, VA., Dec. 2d, 1872.-Last Friday, Justice H. S. Barnum, of this county, (Fairfax,) issued a warrant commanding Dr. McCormick to go to a house occupied by Ennis Jackson, a colored man, near Cloud's mill, and give his opinion with only tolerable luck, bringing back but a as to the disease of its inmates. The Doctor found three cases of small-pox. From all he could learn, the disease had been communicated to these children by their father, who had been working in Washington. Some of the neighbors told him he too had had the disease, but in a mild form, and that he had gotten well. So that would make four cases in

Living Advertisements. A medicine that has done more than all the prescriptions of the pharmacopaia to protect the human system against the bodily ills superinduced by unhealthy surroundings, is certainly worthy of universal confidence. It is mainly on account of its extraordinary preventive properties that Hostetter's Stomach Bitters is so exceedingly popular in localties subject to the visitation of miasmatic fevers and other diseases produced by empoisoned air. A family that has escaped sickness during a sickly season in conequence of using the Bitters as a safeguard, is a living advertisement of the virtues of the prepa-The whole neighborhood realize the ration. fact. "I couldn't have believed it," says one.
"I scarcely credited the advertisements; but one must believe what one sees," says another. "It is the very thing we need in this unwholesome section of country," remarks a third. And the result is that the instinct of self-defence, the first law of nature, induces three-fourths of that community to obtain a supply of the great vegetable antidote before the next sickly season sets in. In winter, when the system requires extra vigor and elasticity to enable it to baille the effects of damp and cold, the Bitters will be found particularly serviceable. Rheumatism will not be apt to fasten upon muscles and nerves that have been braced up by this excellent invigorant and nervine; nor will the severities of the season, which have such a disastrous effect on the pulmonary organs of the feeble and delicate, be likely to exercise the same untoward influence in cases where the stomach and the external surface of the body (which always sympathizes with the digestive organs) have been toned and stimulated by a course of the restorative. The fits of indigestion and irregularities of the bowels which proceed from sudden changes of weather may always be averted by a timely use of the Bitters.

## It Acts Like a Charm.

This is what we hear on all sides of Dr. Tutt's Expectorant. In cases of Croup, Bronch tis, Asthma and all diseases it affords instant relief. It permeates the very substance of the lungs and causes them to throw off all acrid matter. It is very pleasant to the taste. Children take it readily.
